Who We Are: Us and Our Vision

Who We Are

We founded EPiC in 2014 drawing inspirations for our food and experiences from Melbourne. We own and operate a chain of click and mortar food halls hosting a list of specialty internet restaurants serving and delivering a comprehensive repertoire of on-demand meals to surrounding local communities at an affordable price.

We are currently located at Damansara Perdana, Bandar Sunway and Mont Kiara.

Our Vision

We have a clear vision: **To empower our community to live well and eat better, one meal at a time.**

Our Philosophy

Honest, Real Food

Honest, Real Food is our commitment to real flavours, fresh ingredients, innovative cooking techniques and fast delivery.

We believe the secret to good food lies in selecting and using only fresh, whole ingredients. We also believe honest people who care and are passionate about what they do makes all the difference and better food. Further, we believe in employing and managing our own delivery team to ensure quick, dependable deliveries.

Good People, Better Food

We believe honest people who care and are passionate about what they do makes all the difference and better food. We don't own a factory. We're focus on the process, not processed stuffs. We just work harder than others (like how every mum would); we chop, slice and dice throughout the day in our kitchen at every EPiC outlet. We produce our own sauces and chicken stocks from scratch. No shortcuts. We don't fry anything, instead we innovate special baking techniques which mean same taste & texture minus the grease.

We are Halal certified to the highest standard by the Department of Islamic Development of Malaysia (JAKIM).
